## :≡ Description

Lab.Space is a trusted general contractor serving Montreal and surrounding areas, specializing in designing and building workspaces of all kinds, especially laboratories. With over 15 years of experience, we provide turnkey, high-quality construction services tailored to specific needs.

## Key Collaborations/Partnerships

Since 2018, we have collaborated with the real estate investment trust (REIT) Alexandria, converting office buildings into laboratory spaces suitable for all types of biotech organizations.

## Certifications

RBQ

## Other services

Design and construction of specialized biotech workspaces
