About the Organization

Member of 

-  **In Quebec:** Head Office, Quebec-based SME
-  **Worldwide:** 11-50 employees | **Quebec:** 11-50 employees
-  **Areas:** North America, South America, Europe, Middle East, Africa, Asia-Pacific
-  **Customers:** Startup, SME

Description

MFI is a computational chemistry company specializing in drug discovery, quantum mechanics, molecular dynamics, cheminformatics, and artificial intelligence. Offering proprietary software, algorithms, and contract research services, MFI collaborates with organizations to accelerate preclinical drug discovery for small molecules, from biotech startups to established pharmaceutical companies.

Key Collaborations/Partnerships

Partnerships with NMX Research and Solutions (Quebec) and Oxeltis (France) to optimize research components related to drug design.

Services

Service Categories

Discovery Services, IT Services,

Discovery Services

Chemistry, Pharmacokinetics and metabolism, Pharmacology

IT Services

Expertise

🎯 Therapeutic Areas

Service offering independent of therapeutic area expertise

🔗 Scientific Platforms Served

Small molecules, RNA therapies, Radiopharmaceutical

☰ Types of Studies

Preclinical

Other services

Computer-Aided Drug Design (CADD)
