Description

Founded in 2016, the C3i Center is a CDMO that develops and manufactures complex cell and gene therapies with cutting-edge expertise, from early development through GMP-compliant commercialization. Located in Canada, C3i operates state-of-the-art facilities that include multiple manufacturing cleanrooms as well as complementary service infrastructures providing access to personalized medicine, enabling it to serve as a leading integrated partner in advanced therapy manufacturing for research teams, biotechnology companies, and pharmaceutical organizations.

Key Collaborations/Partnerships

Pharmaceuticals, biotechnology innovators, research centers, academics, hospitals

Certifications
